# INTRODUCTION

Armitage is the leading Construction Chemicals company in Pakistan. It utilizes the most technologically advanced manufacturing processes in the industry with a state-of-the-art manufacturing facility for commercial, industry, and residential structures in Pakistan.

Armitage is capable of producing a wide range of products that are resistant and long-lasting, boasting performance against leakage.

At Armitage, in our pursuit to develop specialized construction chemicals, process of R&D continues. We have acquired chemicals from world resource manufacturer, blended according to our client and climatic condition. A very strict quality control is exercised and product subjected to tough trials.

To become an industry leader through a persistent commitment to customer focus, technical innovation, managerial excellence, entrepreneurial spirit and social responsibility.

# PRODUCT RANGE

Managing and optimizing a product range involves continuous assessment of market dynamics, consumer behavior, and industry trends. It requires strategic decisions about introducing new products, discontinuing underperforming ones, and ensuring that the overall range aligns with the brand's identity and business objectives.

# WATER PROOFING SOLUTIONS

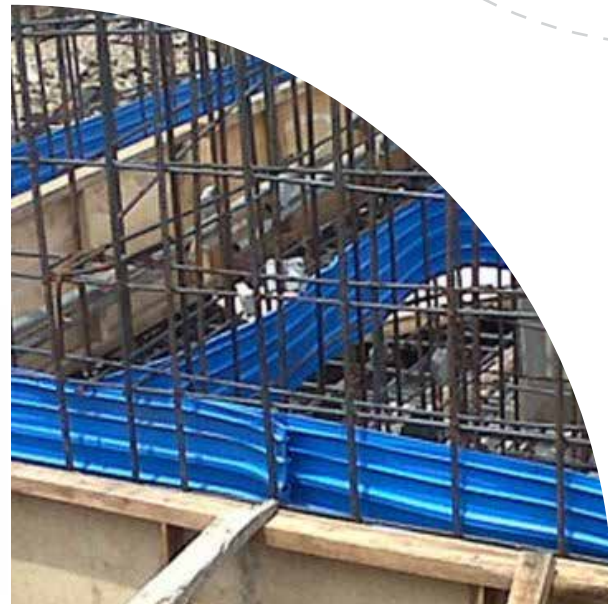

Armitage provides an exceptionally durable roofing product which is easy to install and will provide long-term weathering performance to obtain excellent heat and uv resistance and waterproofing properties  
Armitage is a leading manufacturer of modified bitumen membrane and waterproofing solution provider.

Armitage utilizes the most technologically advanced manufacturing processes in the industry with a state-of-the-art manufacturing facility.

## PVC Water Stopper

PVC Water Stoppers are flexible Plastic strips which provide a physical barrier to Water at concrete joints, mostly in basements, Water retaining structures like Water tanks, Swimming pools, structural foundations & other below ground

## Modified WaterProofing Membrane

Torch on membrane waterproofing is a type of waterproofing method used in various places like flat roofs and balconies, just to name a few

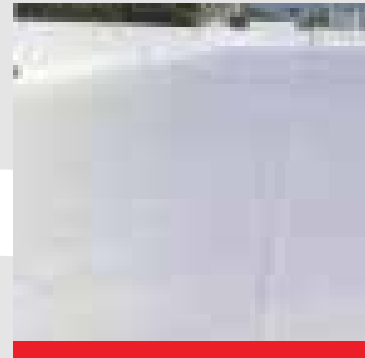

# WATER PROOFING PRODUCTS

**CEMENTITIOUS ACRYLIC  
WATERPROOFING**

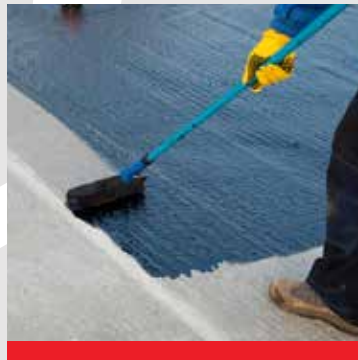

**ACRYLIC COATINGS**

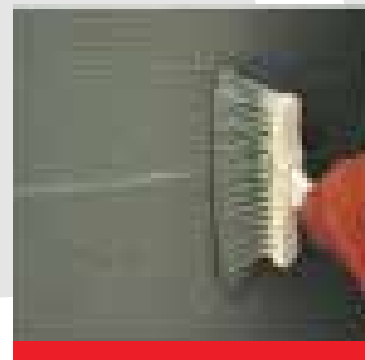

**POLYURETHANE  
ACRYLIC HYBRID**

**POLYURETHANE  
MODIFIED**

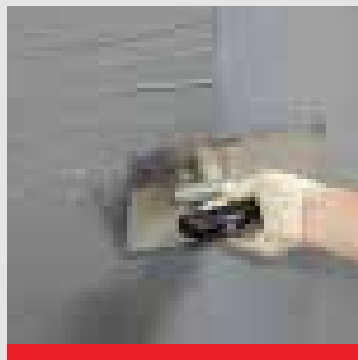

**BITUMEN BASED  
COATINGS**

**CEMENTITIOUS SLURRY**

**OIL BASED WATER  
REPELLENT**

**CRYSTALLISING  
WATERPROOFING**

**BITUMEN MEMBRANES**

# INDUSTRIAL FLOORINGS

## Epoxy Resin

Epoxy resins are renowned for their strong bonding capabilities. They adhere well to a variety of materials, including metals, glass, ceramics, and many plastics.

## Polyurethane Resin

Polyurethane adhesives offer strong bonding capabilities and are used in woodworking, construction, and automotive assembly. They provide excellent adhesion to a variety of materials and often have good resistance to heat and chemicals.

● WATER BASED EPOXY FLOOR COATING

● EPOXY FLOOR COATING - ROLLER APPLIED

● SELF LEVEL EPOXY FLOOR

● SELF-LEVEL HEAVY DUTY EPOXY TOP COAT

● EPOXY FLOOR SCREED

CHEMICALS

## CONCRETE REPAIRS

- PCC Mortar
- Spray Mortar
- Quick Repair Mortar
- Epoxy Mortar
- Fiber Reinforced Repair Mortar

## CONCRETE ADMIXTURES

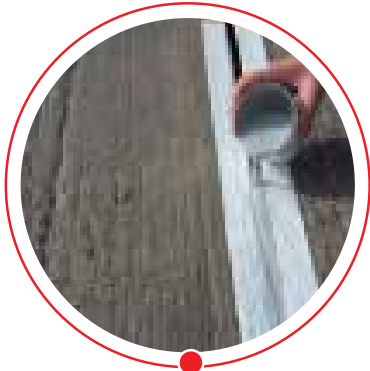

We offers a wide variety of admixtures for every concrete design and need. Our Engineers leverage years of experience and our state of the art lab to work hand in hand with clients and deliver the most cost-effective solutions for every need.

# EXPANSION JOINT SEALANTS

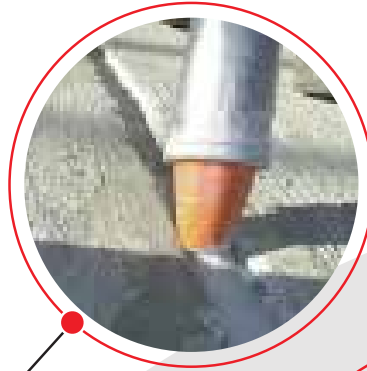

ARMITAGE  
CONSTRUCTION  
CHEMICALS

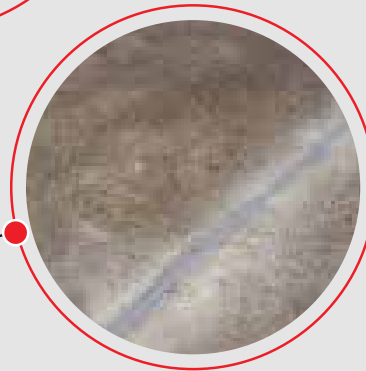

**POLYURETHANE  
SEALANT**

**POLYURETHANE  
SEALANT**

**POLYSULPHIDE  
SEALANT**

**BITUMEN SEALANT**

**WATER SWELLABLE BAR**

**POLYMER JOINT TAPE**
